

DEAR FRIEND,

We are so honored by your attendance at the 5th annual gathering of the tribe of Gratitude Railroad and welcome you as family whether this is your first time joining us or you are a veteran. We hope you will actively engage, debate, share of yourself and importantly depart with new friends, great inspiration and calls for action.

Please join us for (early) morning yoga, mediation, mountain biking and importantly the end of day hikes where we continue to deepen conversations, decompress and reinforce our love for the natural beauty of the planet, and thus our commitment to protecting it through supporting the sustainable businesses we gather to learn about.

This is all about you. The GRR team is here to ensure you achieve your goals, meet whomever you want, grow and have fun. Please don't hesitate to tap any one of us on the shoulder if we can enhance your experience.

With Gratitude, Eric, Howard, Joe, Sarah, Thomas, Stephanie, Noah and Harry.

Blue Forest

Presenter

Zack Knight

Co-Founder and Managing Partner

Contact info

Twitter: @blueforestconsv Website: blueforest

conservation.com

Youtube: www.youtube.com/ watch?v=OohmilKS-w4

Company Overview

The Forest Resilience Bond is a pay-for-success investment vehicle that catalyzes private capital to fund forest health in an effort to reduce wildfire severity and carbon emissions while protecting water resources and communities.

Company Details

Initial cohort of pilot projects will commence in National Forests across CA in 2018.

Impact

At scale, the FRB will deploy billions of dollars of investor capital in forest health, resulting in reduced wildfire severity, protected water and air quality, and improved water quantity all while creating sustainable rural jobs.

EnergySage

Presenter

Vikram Aggarwal

Contact info

Twitter: @blueforestconsv Website: www.energysage.com

Twitter: @EnergySage

Facebook: www.facebook.com/

EnergySage/

Company Overview

EnergySage is the "Kayak of Solar". We are the leading online marketplace for rooftop solar energy systems. The disruptive platform helps buyers to easily & quickly request, review and compare competitive quotes in a standardized format for turnkey solar energy systems and financing options from prescreened, high quality solar installers.

Company Details

EnergySage is the leading online comparison-shopping marketplace for rooftop solar, community solar, and financing. We have raised ~\$3.3M in private capital and received three prestigious SunShot Awards from the U.S. Department of Energy totaling over \$3M

Impact

EnergySage is accelerating mass market adoption of solar and storage energy systems. In 2017, we would drive approx 2% of all residential solar installations.

Equilibrium Stock Exchange

Presenter

Dr. Matthias M. Pitkowitz Founder & CEO

Contact info

Website: www.eqxse.com Email: m@eqxse.com

Company Overview

EQX is a New York-based stock exchange that offers companies and investors a stock market focused on long-term investment and value creation instead of high-volume trading and quarterly earnings.

Company Details

EQX is using a carefully calibrated system of behavioral incentives, governance & disclosure standards and an innovative trading platform, to enable listed companies to think more long-term. We are raising \$5mm in our first institutional round (a portion of which has been filled to date).

Impact

Our mission is to create a long-term stock market which, instead of pressuring companies to focus on maximizing quarterly earnings, incentivizes them to drive long-term sustainable growth. Our systems are designed to enable a large-scale shift of public companies into our market, thereby driving a long-term focus that pushes companies to increase shareholder as well as stakeholder value.

FyrFly Ventures

Presenter

Julie Allegro | Philipp Stauffer

Contact info

Website: www.fyrfly.vc Email: julie@fyrfly.vc philipp@fyrfly.vc

Fund Overview

FYRFLY Venture Partners, II L.P. is a Silicon Valley based venture capital fund focused on seed stage technology companies with a competency in "data & intelligence." The core includes an exponential advantage derived through proprietary data amplified by Al and machine learning.

Fund Details

The fund focuses on U.S.-based technology companies that fuel disruption through "data and intelligence."

The FYRFLY Venture Partners Fund II, LP is a \$40M fund focusing on U.S.-based technology companies that fuel disruption through "data and intelligence." The fund seeks to invest \$250K to \$600K in Series Seed with a target of 5 – 10% ownership.

Impact

At FYRFLY Venture Partners we believe that outsized financial returns are generated by mission driven entrepreneurs who have aspirations of global impact on many fronts. Several of our companies have started foundations alongside of their for-profit businesses which they have seeded with founder shares and/or have donated their product to non-profits in need.

Golden

Presenter

Sam Fankuchen

Contact info

Email: sam@goldenvolunteer.

com

Website: goldenvolunteer.com

Twitter: @goldenapp

Company Overview

Golden is the #1 app for volunteering because it is fun, easy, and personalized. More than 3,000 nonprofits, foundations, CSR departments, schools and policy makers inform volunteer program decisions with 100% accurate Golden data.

Company Details

In the Golden app, volunteers can discover, sign up, run background checks, and participate in the perfect opportunity in seconds flat. This year, we will continue to monetize our analytics platform and onboard our users' networks of supporters, our our way to hitting \$2 million ARR. We are offering the remaining \$1m on a convertible note to join our strong cap table and help us tackle a very compelling market.

Impact

We are 2x as effective at signing people up to volunteer as Amazon is at getting users to add items to their shopping carts. We show community entities and their financial supporters key metrics in real time that dramatically reduce staffing and operating costs and increase productivity and reach.

Invenergy

Invenergy

Presenter -Amy Francetic

Contact info

Website: invenergyfuturefund.

com

Email: afrancetic@invenergyllc.

com

Fund Overview

The Invenergy Future Fund, leveraging Invenergy's engineering and operational expertise as unique competitive advantages to source, diligence, and manage investments, invests in early and growth stage businesses seeking to accelerate the transition to a clean energy future. The Fund is focused on Series B and C investments in Energy Storage, Distributed Energy Resources, Data Analytics and Cybersecurity, Operational Efficiency, and New Power Generation.

Fund Details

The fund focuses on technology businesses seeking to accelerate the transition to a clean energy future, to empower and define the new energy paradigm. The Invenergy Future Fund LP is a \$150M venture fund investing in clean technology in the U.S. The Fund has a \$1M minimum investment commitment and a 5-year investment period.

Impact

The Fund's mission is to invest in technology businesses seeking to accelerate the transition to a clean energy future, to empower and define the new energy paradigm.

Nepris

Presenter

Sabari Raja Co-founder and CEO

Contact info

Email: sabari@nepris.com Website: www.nepris.com Twitter: @neprisapp

Company Overview

Nepris is a cloud based platform connecting industry and education to bring real world relevance and career exposure to students in K-16 classrooms.

Company Details

Nepris uses a matching algorithm to find, match and virtually connect industry professionals to classrooms for a live chat to bring curriculum topics to life, mentor students on projects, provide virtual tours of workspaces, perform mock interviews and evaluate student projects in realtime. Nepris has 30,000 teachers and 20,000 industry professionals on the platform, 2 state wide adoptions. We have raised \$1.65 million in seed funding from prominent impact investors like The Michael and Susan Dell Foundation, Village Capital, SV2, Investors Circle(PCC), VoQal and others. Closed 2016 with \$907 in bookings.

Impact

Nepris mission is to level the playing field for all students, rural, urban and lower socioeconomic. 55% of total students reached through Nepris are on free and reduced lunch (FRL), compared to a national average of 51%.

PG Impact

Presenter -Kvle Osborn

Contact info
Email: kyle.osborn@
partnersgroup.com
Website: pa-impact.com

Fund Overview

PG Impact Investments was founded in 2015 with the vision that private investment, innovation, and entrepreneurial talent can bring sustainable growth and provide solutions to the challenges facing our society. We follow a global, integrated, relative-value investment approach, investing across social impact sectors and across the entire capital structure.

Fund Details

The fund focuses on financial inclusion, energy access, food and agriculture, affordable housing, and healthcare and education in emerging markets.

PG Impact Investments is targeting a \$200M fund focusing on financial inclusion, energy access, food and agriculture, affordable housing, and healthcare and education in emerging markets.

Impact

Our goal is to improve the lives of underserved people with a strong focus on emerging markets. The assessment and management of social impact forms an integral part of our investment management process.

Radicle Impact

Presenter Catha Groot

Contact info

Website: www.radicleimpact.

100

 $\textbf{Email:} \ catha@radicleimpact.$

com

Fund Overview

Early stage impact venture firm focused on transformational opportunities and courageous entrepreneurs in sustainable food, responsible finance, and clean energy. Good food, good money and good energy.

Fund Details

We target benchmark or better returns for early stage venture (3x over 7-10 years) and focus on companies where financial success leads to measurable social and environmental outcomes. We are currently a single family office with 16 portfolio companies. Our returns are 2.4x and an implied IRR of 66% (unrealized).

Impact

We seek to create a sustainable and just energy system, an equitable and regenerative food system and a fair, transparent and inclusive financial system. We are committed to diversity, democratization of access, social justice and environmental resilience.

Reach Capital

Presenter

Jennifer Carolan | Esteban Sosnik

Contact info

Website: reachcap.com Email: jennifer@reachcap.com esteban@reachcap.com

Fund Overview

Reach supports the most promising entrepreneurs developing technology solutions to address challenges in early childhood, K-12 and higher education. We invest in early-stage companies that develop tools, applications, content, and services to improve education opportunities for all children.

Fund Details

The fund invests in early-stage companies that develop tools, applications, content, and services to improve education opportunities for all children. Fund I is a \$53M early stage venture capital fund investing in education technology. Reach anticipates a first close of Fund II by the end of this month, with all anchor funders from Reach I returning, including Bill & Melinda Gates Foundation, Omidyar Network, Sesame Street Workshop, and individuals such as Brook Byers and Scott Cook.

Impact

Reach Capital invests in education technology to improve education opportunities for all children. We've supported over 50 companies to-date and their aggregate customer footprint serves 53% low-income students.

Redwood Grove Capital

Presenter

Ted Roosevelt

Contact info

Website: www.redwoodgrovecapital.

com

Email: troosevelt@redgrovecap.com

Phone: 650-561-4189

Fund Overview

Redwood Grove is a concentrated thematic value manager, that seeks outperformance in the era of climate change. Our detailed analysis of firms' financial metrics and sustainability strives to exploit market inefficiencies by identifying undervalued companies across all sectors that also have a competitive advantage for the transition to a low carbon economy.

Fund Details

Concentrated thematic value manager. Redwood Grove Capital is invested in 20 names, with position sizes ranging from 1 to 13%. We manage money for HNW individuals, family offices and Endowments and Foundations. The fund has doubled in size since its launch on February 15th 2017 and has outpaced the Russell 1000 value index by over 200 bps through July 31st 2017.

Impact

At Redwood Grove Capital we believe that the capital markets are a significant driver of change. By demonstrating the economic value of sustainability practices at publicly traded companies, we believe that we can drive capital and action toward a low carbon economy.

Reinventure

Presenter

Edward Dugger III

Contact info

Email: ed@reinventurecapital.

com

Phone: 617-480-2644

Website: www.reinventurecapital.

com

Twitter: @ReinventureCap

Fund Overview

Reinventure is raising a \$50 million fund to invest equity and debt capital in early growth stage (breakeven or so) companies led by women and people of color. We are pursuing investors seeking an impact rich return on capital and inclusion.

Fund Details

A contrarian investment approach targeting underserved founder markets and further mitigating risk through a combination of equity and convertible debt investment instruments. Objective is to achieve broad returns on the portfolio through multiple exit options, rather than outsized returns on a few.

In the midst of capital campaign. In due diligence with foundations, university endowments and family offices.

Impact

Prior fund helped founders of color build companies of scale in over 10 industry sectors and create over 7,000 family supporting jobs, while generating a 10-year top quartile IRR of 32%. Seeking a similar impact with both founders who are of color and women in impact rich sectors while again generating top quartile returns.

Rethink Community

Presenter
Derwin Sisnett

Contact info

Email: derwin@rethink.vc Website: rethink.vc/community

Fund Overview

ReThink Community, L.P. is a White Plains, NY based social impact investment fund focused on investing in commercial, residential and industrial real estate assets to support economic and civic growth in underprivileged U.S. communities.

Fund Details

The fund focuses on four core real estate assets centered on neighborhoods that lack adequate education, housing, healthcare, and workforce opportunities. ReThink Community, L.P. is a \$100-\$150M real estate investment fund focusing on creating long term capital appreciation and measurable social impact by constructing a diverse real estate portfolio of development and value add assets in commercial, residential, and industrial real estate projects.

Impact

ReThink Community's mission is focused on lifting up American communities by investing in real estate that maximizes economic and civic growth. ReThink Community seeks to improve communities from the inside out and have lasting impact on their constituents.

Sambazon

Presenter -Ryan Black

Contact info

Website: www.sambazon.com Email: ryan@sambazon.com

Company Overview

Sambazon, Sustainable Management of the Brazilian Amazon, was founded in 2000 as a social venture to use the superfruit, Açaí (ah-sigh-ee) as a vehicle to promote sustainable development in the Brazilian Amazon. Today, we are the global leader in the development and sale of certified Organic and Fair Trade Açaíbased products, including refrigerated juices, frozen smoothie packs and sorbet, energy drinks, and Açaí Foodservice and Industrial products.

Company Details

After 17 years of pioneering a vertical supply chain, intellectual property, and 20,000 points of distribution across six key countries, the world is now slowly becoming aware of the magic of Sambazon Açaí.

Impact

Every bowl or bottle of Sambazon Açaí which we market makes a direct positive impact on the Amazon Rainforest and the communities from which it comes. Each year Sambazon injects over \$10M into the Amazon's flooded forest region and our Fair Trade program invests over \$100,000 annually into social and health programs.

Shared-x

Presenter John Denniston

Contact info

Email: jdenniston27@gmail.com

Company Overview

Shared-X is an emerging market agricultural company with two objectives: generate strong investor returns and lift smallholder farmers out of poverty, in both cases by deploying advanced, sustainable farming techniques. We use a hub-and-spoke system in which the hub is Shared-X's farm and the spokes are the smallholder farms in the community, growing high-value specialty crops such as organic bananas, specialty coffee, and aromatic cocoa, not commodity row crops like corn and rice.

Copmany Details

Shared-X previously raised Series A and Series B financings, both of which were substantially oversubscribed, and held a first closing on a Series C financing, which is currently being filled out. In 2016, our first full year in business, we generated \$4M in revenue and expect revenue of \$10M in 2017.

Impact

Social and environmental: we aim to increase smallholder farmer incomes 2 – 7x and thereby lift large numbers out of poverty by sharing our sustainable farming and advanced marketing methods with our neighbors. Shared-X has engagement with >10,000 smallholder farmers/family members at various levels of advancement

SmartLam

Presenter

Casey Malmquist

Contact info

Email: casey.malmquist@smartlam.com

Website: www.smartlam.com

Twitter: @smartlamllc

Company Overview

Smartlam is one of the first Cross Laminated Timber (CLT) manufacturers in the United States, based in Columbia Falls, MT. Their current product offerings include industrial matting, architectural CLT, and balcony systems. The business is also a leader in design and engineering services to help architects, developers, and contractors integrate CLT into their projects.

Company Details

CLT is a next generation, sustainable, heavy-timber product with wide-ranging applications across the construction industry. Extensively tested and widely used in Europe for the past 20 years, CLT structures have been proven to have similar or better seismic resilience, acoustics, thermal performance, fire resistance, and design flexibility than conventional building materials, such as steel and concrete, at competitive costs and much lower environmental footprint. 2017E Revenue: \$8.4M; 2018E Revenue: \$14.7M; Current Raise: \$5M Equity. \$1M committed.

Impact

SmartLam expects that its projected annual production of 48 million board feet of CLT will sequester 77,841 metric tons of carbon, and result in 30,118 metric tons of avoided greenhouse gas emissions. The annual reduction of this combined 107,959 metric tons of CO2 equates to the removal of 20,620 cars from roadways each year.

Terviva

Presenter Naveen Sikka

Contact info

Website: www.terviva.com

Company Overview

TerViva transforms distressed agriculture land into productive sources of protein and vegetable oil through pongamia, a sustainable tree crop.

Company Details

Pongamia trees produce 10x more vegetable oil and 3x more protein per acre than soybeans, while using less fertilizer, sequestering carbon, and creating opportunities for agroforestry and intercroppina.

Post revenue, \$12M raised over 3 investment rounds, \$2M in competitive grant awards.

Impact

Oilseeds are predicted to be the most in-demand crop of the next century, due to changing diets and increasing protein and vegetable oil consumption in emerging markets. The world requires an oilseed crop that produces more yield per acre, uses less land and water, emits far less carbon, and can withstand the expecting erratic weather from climate change. Pongamia is the answer, and TerViva has a complete technology platform from genetics to markets to address this opportunity.

The Renewal Workshop

Presenter _ Jeff Denby

Contact info Mobile: 510-529-5780

Email: jeff.denby@ therenewalworkshop.com

Twitter: @jeffdenby

Company Overview

The Renewal Workshop partners with apparel brands to recover the value in their unsellable returns and excess inventory, thereby diverting thousands of pounds of apparel from landfill and creating the new consumer product category of Renewed Apparel.

Company Details

The Renewal Workshop contracts with apparel brands to source all of their unsellable returns and excess inventory. We have 12 brand partners and launched the direct to consumer ecommerce site in February of 2017. We will be introducing renewed apparel for one of the largest brands in the apparel industry in Q2 of 2018. We have raised over \$1.5M in equity financing to date and are seeking an additional \$500,000 to close out our second Seed Round

Impact

By renewing clothing, we've so far diverted over 25,000 lbs of apparel from landfill, saved the equivalent carbon impact of burning 16,000 gallons of gasoline, saved over 10M gallons of water, and over 60,000 lbs of toxic chemicals.

The Sustainable Food Fund, Mission Point Partners

Presenter -Sarah Vared

Contact info
Website: http://mppgrp.com
Email: svared@mppgrp.com

Fund Overview

The Sustainable Food Fund will invest equity in venture and growth stage companies that help to create a sustainable, efficient and circular food system.

Fund Details

The Fund will look at opportunities across the supply chain, allowing for diversification, but will focus on underemphasized food and agriculture sectors (e.g. supply chain logistics, shrink reduction, waste/recycling, novel ingredients, novel growing systems) where valuations are attractive and the team has unique expertise. MissionPoint Partners has a pipeline of 150+ opportunities it is actively monitoring which include opportunities in numerous market areas

Impact

The Fund aims to generate the following impacts - Create a more efficient food system by reducing and recycling the 40% of wasted food in the United States; reduce greenhouse gas emissions and degradation of water and soil natural resources; generate clean energy, compost, and animal feed from recycled food scraps to increase access to healthy foods at affordable or low-cost price points; create new jobs and drive local economic activity.

Ultracell Insulation

Presenter

Jonathan Strimling CEO

Contact info

Email: strimling@ultracellinsulation.com Website: www.ultracellinsulation.com Linkedin of CEO: www.linkedin.com/in/

ionathanstrimling

Company Linkedin: https://www.

Company Overview

UltraCell Insulation makes high performance building insulation from recycled corrugated cardboard. Our product outperforms incumbent technologies and can be made at a lower cost.

Company Details

UltraCell Insulation has fully proven its patented technology at scale, has a 10 year supply agreement in place with the nation's largest recycler of corrugated (a \$430M facility) and has lined up nearly \$5M in pre-orders from multiple customers and channels. UltraCell Insulation has successfully raised \$3M in capital from credible sources. In addition, the company has lined up \$10M in additional financing for its first plant, with lead investors identified and terms in place for the next round, which will carry the company to profitability and attractive exit opportunities.

Impact

UltraCell Insulation's product outperforms fiberglass and saves homeowners 26-38% of their heating costs. Over the first ten years following the launch of our first plant, we expect to save homeowners literally \$1B dollars in heating costs and to displace literally billions of pounds (millions of tons) of carbon emissions.

Vermont Works

Presenter -Robert Zulkoski | Frank Koster

Contact info
Website: www.vermontworks.ora

Fund Overview

Vermont Works Impact Partners I LP is a Burlington, VT based private equity fund that is focused on delivering both competitive financial returns and social impact in support of Vermont's job and enterprise development. Vermont Works is unique in its focus on Vermont Social Impact as there is no other professionally managed fund in the state focused on investing solely in Vermont and measured on a "double bottom line" basis.

Fund Details

The fund focuses on targeting three core impact themes: employment and economic development, sustainable living, and health and wellness. The Vermont Works Impact Partners I LP fund is targeting \$50M with an investment period of 5 years. Minimum commitments are \$50K for Vermonters, \$250K for non-Vermont individuals, and \$1M for institutional investors.

Impact

Vermont Works is focused on targeting three core impact themes: employment and economic development, sustainable living, and health and wellness. Vermont Works will play a lead role in the development of an innovation hub that will leverage Vermont's human capital to foster a nurturing environment for startup and growth firms, with the goal of creating living-wage jobs and attracting or retaining youth and innovation to the state.

Copmany Overview

For healthy lifestyle brands, who want to sell custom athletic apparel with no minimum order and delivery in under 10 days, Ziel is the turnkey service offering design, manufacturing and retail integration.

Company Details

Unlike traditional manufacturers who require 1-year in advance design and inventory commitments, Ziel's platform removes these risks and seamlessly designs, manages and delivers exclusive collections to its clients on-demand. We are raising \$800k of which about \$500k is soft-circled. Investment be used to build out MVP on both operational systems and material development to enable scaling of the business according to the committed forecast

Impact

Ziel's product is made in the USA, we use no water to diy our garmets and use fabric made out of recycled plastic. The average brand or retialer has 40% oversupply, which with an on-demand model is fully eliminated saving precious resources.
